

User's Manual

The Aims of the system is to recycle items and pay the money for the customer who put the Item into this kiosk

Step1:

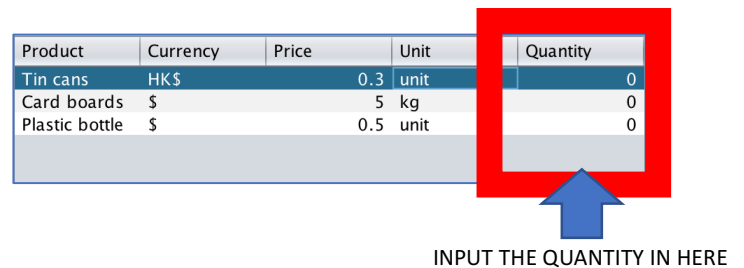

When the user starts the system.

They will see the System like this.

Step2:

The customer should input the quantity they put into the kiosk. Calculate the quantity in different Unit(Unit/KG).

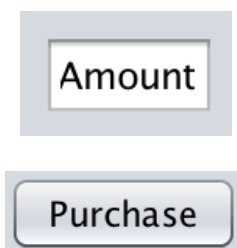

***Please press "enter" or click another row before purchasing so the amount of quantity can be confirmed.**

Step3:

After entering the quantity, the amount will change automatically to the amount you will get from the kiosk.

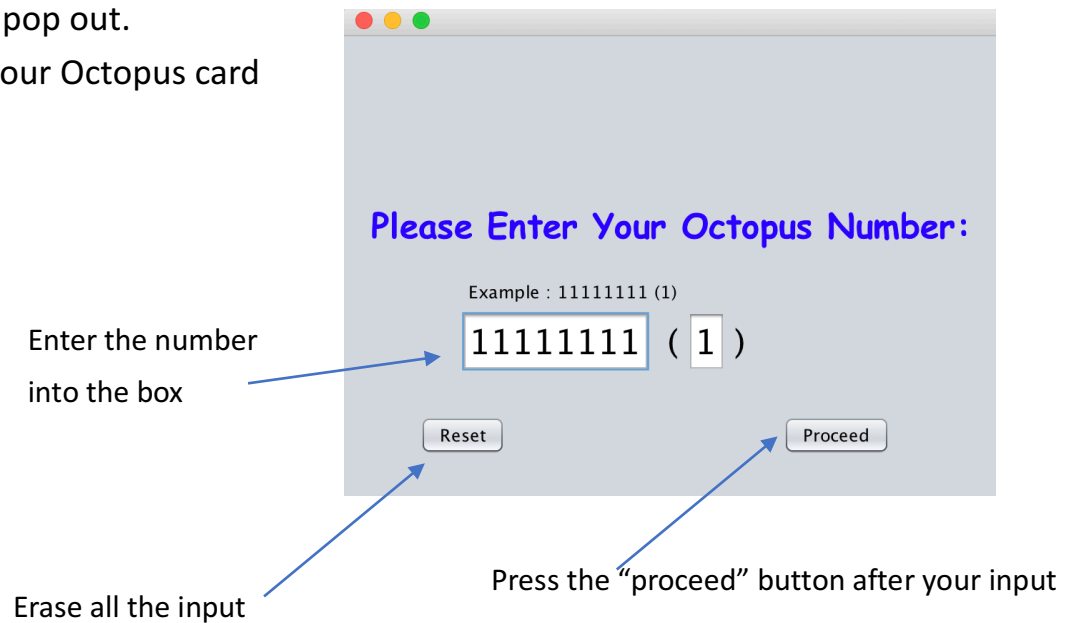

Then please press the "Purchase" button to proceed.

Step4:

A window will pop out.

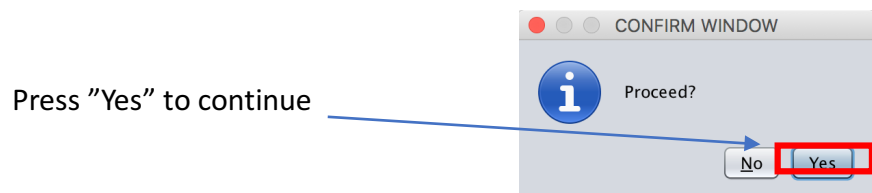

It will ask for your Octopus card number.

Step5:

After your input, press the "Proceed" button.

Click "Yes" to confirm your number is correct.

Step6:

The balance will be transferred into your card.

If you see the "success" sign showed up, it means the program is successfully finished.
